

INVENTORY OF GOODS

HOW TO AVOID DELAYS AND FINES

As an importer, you are not always 100% aware of the goods that are sent to you. However, when the contents of your shipment and the accompanying documents (invoice) are not similar, you will suffer from delays, fines or even confiscation of the goods.

Therefore we would like to inform you that you, **as an importer, are entitled to INSPECT YOUR SHIPMENT IN ADVANCE. To avoid potential problems**, we advise you strongly to make use of this possibility. You only need to inform Diamond Office before the clearance of your goods.
