Dear industry member,

We invite you to the first sale of rough diamonds from the **OrigemA** project. OrigemA is an artisanal diamond mining project, comprising six different cooperatives in the Democratic Republic of the Congo, founded by AWDC, in partnership with RESOLVE, The CEEC, SAEMAPE, Everledger, and the sponsorship of Belgian FPS Foreign Affairs.

The project's goal is to support 1000s of people living in the Kasaï and Kasaï-Central region in the DRC by selling their 100% traceable, **artisanally mined diamonds**, via Antwerp. Thanks to the project, the local mining communities in the Kasaï region get global market access and benefit from fair prices for their goods, higher profits, leading to increased income for many households. By combining innovative scanning technology with digital data collection, OrigemA creates a fully traceable value chain, allowing diamonds to be tracked from the artisanal mining communities where they are recovered all the way to Antwerp.

And now, the diamonds have arrived in Antwerp and will be tendered at **Bonas** from **June 15th until June 19th**, 2026.

Origin

Artisanal rough diamonds from the **Kamana Ndeke** mine in the **Kasaï** region of the **Democratic Republic of Congo**

100% traceable

Tender Details

Dates: June 15 - 19, 2026
Time: 9am - 6pm
Location: Bonas Tender Facility - Antwerp (Diamantclub)

Support over 1000 livelihoods
These diamonds **support an entire community** in the Kasaï province and helps them improve local infrastructure, accessible health care and education.

Every diamond purchased through this tender helps support the communities behind the project. To help you communicate this positive impact, buyers will receive a **media kit** containing project photography, logos and ready-to-use copy for use in their own marketing and communications.
